

Mining Production & Dispatch Report

Financial Year: 2023-24

Demo historical record for testing Dashboard historical comparison. All values are intentionally consistent across the two test reports.

Metric	Value	Unit
Total Production	1,000.00	MT
Total Dispatch	920.00	MT
Total Target	1,100.00	MT

Production by Subsidiary

Subsidiary	Production (MT)
ECL	180.00
BCCL	220.00
CCL	250.00
NCL	350.00

Reference Notes

This document represents uploaded historical mining data for 2023-24. Use it together with the other test-year report to verify that the Dashboard retains historical records, builds a multi-year trend, and calculates YoY growth from database records rather than demo values.
